

LRC Eyepatch Template and Tutorial

1. Trace eyepatch template onto vinyl or felt. Flip over template and trace a second eyepatch. Cut out eyepatches.
2. Cut a 11" strip of 1/4" elastic. (Or the measure of your doll's head.)
3. Place eyepatches back to back and insert ends of elastic between patches on each side. Use the dotted lines template as a guide for elastic placement.
4. Add some glue between eyepatches to temporarily hold everything in place. Allow glue to dry.
5. Carefully stitch around edges of eyepatch, securing the elastic.
6. You're done!
